Get the latest version of Turbogram APK 5.14.3. Your searches and navigation are much faster! Download or install the best version of Turbogram apk for Android directly on your phone! Description Turbogram: Trajectories is a puzzle game where the goal is to make the characters move from one point to another as fast as possible. The first goal is easy to achieve. The second goal is not so easy and the difficulty increases as the game progresses. TURBOGRAM APK MOD is a free gaming application of Android. The gameplay is based on the puzzle game. The player has to guide the character to reach the exit. The primary objective of the game is to guide the character to the exit with minimum time. There are several obstacles on the road. By following the arrow path and by moving the character towards the exit the player moves forward to complete the level. The aim of the game is to reach the exit and complete the level. The player can move the character either by touching the screen or by tilting the device. The players can move the character up and down, forward and back, left and right. The higher the difficulty of the game, the more the options become limited. The player can move the character in all the directions by touching the screen. There are different types of options in the game. The most important options are the left, right, up and down. The game starts with a menu that has the options. The player has to select a category from the menu. Turbogram Apk is a puzzle game where the goal is to make the characters move from one point to another as fast as possible.
